Dealer Comments

We have a special car here it's a 1968 AMX. This car was made by American Motors Corporation, the company we are named after. This car is in great shape overall with just a few imperfections. There are some scratches on the glass and some imperfections in the paint. For the most part, the car appears to be in great shape. The paint is a nice red with a black interior. The exhaust was halfway cut off so we installed a brand new exhaust and muffler. It has a 4-speed manual transmission, which according to our research isn't that common. The engine sounds great! Please see the decoded VIN and data plate info below.
